ELF-Series Inline Water Filters

Don't let the name fool you, the ELF-Series of filters from Omnipure was designed specifically for the higher volume requirements of the food service industry. The ELF (Extra-Large Format) filters have a capacity of up to 20,000 gallons and flow rates of up to 2.0 gal/minute. Engineered as a two piece system, ELF heads are available with or without an auto shut off valve. Replacing the filter body is as easy as a twist of the wrist, no tools needed. The new extended cap version makes ELF's
